

Q2 2021 Investor Presentation

Forward Looking Statements

This document contains “forward-looking statements” within the meaning of applicable securities laws, such as statements concerning anticipated future events, results, circumstances, performance, or expectations that are not historical facts. The use of words such as “may,” “will,” “expect,” “believe,” or other words of similar effect may indicate a forward-looking statement. These statements are not guarantees of future performance and are subject to numerous risks and uncertainties, including those described in the firm’s publicly filed documents (available on SEDAR at sedar.com) and in Morneau Shepell (the Company’s) MD&A under the heading “Risks and Uncertainties.” Those risks and uncertainties include current economic conditions, income tax matters, the ability to maintain profitability and manage growth, reliance on information systems and technology, reputational risk, dependence on key clients, and reliance on key professionals. Many of these risks and uncertainties can affect the Company’s actual results and could cause actual results to differ materially from those expressed or implied in any forward-looking statement made by the Company or on the Company’s behalf. Given these risks and uncertainties, investors should not place undue reliance on forward-looking statements as a prediction of actual results. All forward-looking statements in this document are qualified by these cautionary statements. These statements are made as of the current date and, except as required by applicable law, the Company undertakes no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise. Additionally, the Company undertakes no obligation to comment on analyses, expectations, or statements made by third parties in respect of the Company, its financial or operating results, or its securities.

Business overview

The Company's Purpose, Vision and Values are the pillars by which the Company operates.

Our purpose

Improving lives.
Improving business.

By helping our clients improve the wellbeing of their people, we help them improve workforce engagement and productivity, thereby improving the performance of our clients' organizations.

LifeWorks is a world leader in providing digital and in-person solutions that support the total wellbeing of individuals – mental, financial, social and physical. We deliver a personalized continuum of care that helps our clients improve the lives of their people and by doing so, improve their business. It's the idea that by improving a person's life, we improve how they perform at work.

Our vision

To optimize the health and productivity of people – the heart of every successful organization.

Our values

We value long-term relationships
We treat others the way we want to be treated
We are innovative and entrepreneurial
